

# Northspyre's Tasks & Milestones

Visualize activity management across your portfolio

Simplify task management across your portfolio, and set key milestones to ensure your projects stay on time and on budget.

## Simplified Project Management

Set key milestones throughout projects to keep your teams on track and on budget

## Progress at a Glance

Easily check the progress across your portfolio with simple to use trackers

## Stay on Track

Leave details in each task and subtask for your team, so they have the context to get the job done

## Build Structure

Create specific requirements for each task, ensuring tasks are executed in the most effective order and crucial steps are not missed

## Convenience with Microsoft Project

Quickly import and export all of your existing projects in Microsoft Project into Northspyre, seamlessly managing across workflows

## Your Command Center

Northspyre is a single software solution to keep your entire team organized, on track and on budget
