

# Northspyre's Vendor Directory

All of Your Vendors In One Place

A simple and effective way to manage all of your vendors across multiple projects including contacts, notes and files specific to each vendor

## Streamline Vendor Management

Your entire team can access information about all of your vendors across all projects, creating unmatched visibility

## Centralize Information

Northspyre's data inbox organizes and attaches all important documents sent via email to individual vendors automatically

## Share Institutional Knowledge

Remove the risk of information leaving with your team, the Vendor Directory houses information on contacts, previous work and detailed notes

## Make Informed Decisions

Ensure your team is using the best vendors for a job and sharing that information across your portfolio

## Transparent Bidding

Use the Vendor Marketplace to see vendor's entire portfolio of work and see how they stack up to other vendors in your area for a fast bidding process

## Your Command Center

Northspyre is a single software solution to keep your entire team organized, on track and on budget
